TECHNICAL PROJECTS

My magic bookstore | [Live](#) | [GitHub](#) - This was a solo project. It has the basic functionalities of a bookstore app, like adding and deleting books, filter them based on their category.

- Built with: React-Redux

Weather-App | [Live](#) | [GitHub](#) - A weather application to search for local weather conditions. It makes an API request to OpenWeatherMap API. Built with: JavaScript.

Social_media | [Live](#) | [GitHub](#) - The app has the basic functionalities of Facebook, such as creating accounts, writing posts, commenting on friend's posts, sending and requesting friendship from other users.

- Built with: Ruby on Rails, Ruby Gems, Bootstrap, CSS, SCSS, and tested with: RSpec, Capybara.

EXPERIENCE

Full Stack Web Development Student & Mentor

March 2019 – Present

Microverse, Remote

- Spent 3100+ hours learning intermediate and advanced topics such as mastering algorithms, data structures, the use of GitHub, industry-standard git-flow, and full-stack development.
- Built several full-stack projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming over 40 hours/week.
- Participated in daily standup meetings to master the skills needed in a real-life work environment.
- Mentored junior web developers, providing technical support through code reviews as well as proposed improvements to code organization and quality.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

Manager

January 2016 – Present

C.M.I. Dr. Horvath Eva, Atintis, Romania

- Maintained a professional work environment between members of the team by offering guidance, supervision, and leadership to staff.
- Built small apps for the health care unit (scheduler app, file cabinet system - users can sign in, add and delete their docs)
- Conducted the hiring, training process of new staff, and also made annual performance reviews.
- Improved staff development by creating and implementing new strategies
